

## WHO IS NATIONAL TESTING LABORATORIES?

National Testing Laboratories (NTL) is one of the largest independent laboratories in the U.S. specializing in the analysis of drinking water for chemical and microbiological contamination.

For more than 15 years, we have offered a wide range of services for residential and commercial customers.

Commercial customers include public water systems, environmental consultants, engineers, water treatment professionals, bottled water plants, well drillers, food producers, pharmaceutical companies, laboratories and home inspectors.

## HOW SAFE IS YOUR DRINKING WATER?

*Is the quality and safety of your drinking water important to you and your family?*

Low-level water contamination is widespread as indicated by EPA and Environmental Working Group studies. A thorough analysis of a majority of the nuisance and hazardous contaminants that are regulated by the EPA Safe Drinking Water Act is available, economically, from National Testing Laboratories (NTL).

Do you know the level of exposure you and your family may be experiencing on a daily basis? Our analyses can provide "peace of mind" and information regarding how appropriate treatment, if any, may be taken.

**Fact...**

Lead in your water can damage the nervous system and reduce the intelligence capabilities of children.

**Fact...**

Bacteria and/or high sulfate levels can have adverse effects on the gastrointestinal system.

**Fact...**

Atrazine and other common herbicides, industrial chemicals and pesticides can cause tumor growth.

**Fact...**

Municipal systems are only responsible for water quality leaving treatment facilities, not the water you drink in your home.

Up to 103 different contaminants can be identified by NTL's comprehensive informational screening tests at a low cost.

May we provide you and your family this important health and safety information? Our primary concern is the safety of your drinking water. Discover how our Watercheck products can protect your family.

Test Packages	Unit Price	Shipping Charge*
WATERCHECK (83 contaminants)	<b>\$167.00</b>	<b>\$10.95</b>
WATERCHECK WITH PESTICIDE OPTION (103 contaminants)	<b>\$206.00</b>	<b>\$10.95</b>
CITYCHECK	<b>\$206.00</b>	<b>\$10.95</b>
FIRST DRAW & FLUSH LEAD ANALYSIS	<b>\$45.00</b>	<b>\$5.95</b>
TOTAL COLIFORM BACTERIA	<b>\$35.00</b>	<b>\$5.95</b>
QUICK-SCREEN (iron, alkalinity, hardness, pH and TDS) Results in 48 hours – Faxed or Emailed	<b>\$65.00</b>	<b>\$7.95</b>
BNLC (bacteria, nitrate, nitrite, lead and copper) Results in 48 hours – Faxed or Emailed	<b>\$100.00</b>	<b>\$7.95</b>

\* Shipping charges cover shipping to client via Federal Express Ground Delivery (typical delivery time is 3-5 days).  
If you need your testing kit sooner express shipment is available, call for pricing.

YOU MAY ORDER ONLINE AT [WWW.NTLLABS.COM](http://WWW.NTLLABS.COM).**

## DRINKING WATER ANALYSIS PERFORMED – WATERCHECK WITH PESTICIDES

### BACTERIA

Total Coliform – E. coli (presence, absence)

### INORGANIC CHEMICALS – METALS:

Aluminum	Manganese
Arsenic	Mercury
Barium	Nickel
Cadmium	Potassium
Calcium	Selenium
Chromium	Silica
Copper	Silver
Iron	Sodium
Lead	Zinc
Magnesium	

### INORGANIC CHEMICALS AND PHYSICAL FACTORS:

Alkalinity (Total as CaCO <sub>3</sub> )	Ortho-phosphate
Chloride	pH (Standard Units)
Fluoride	Sulfate
Hardness	Total Dissolved Solids
Nitrate as N	Turbidity (Turbidity Units)
Nitrite as N	

### ORGANIC CHEMICALS – TRIHALOMETHANES AND VOLATILES

1,1-Dichloroethane	4-Chlorotoluene	Dichlorodifluoromethane
1,1-Dichloroethene	Acetone	Dichloromethane
1,1-Dichloropropene	Benzene	Ethylbenzene
1,2-Dichlorobenzene	Bromobenzene	Ethylenedibromide (EDB)
1,2-Dichloroethane	Bromodichloromethane	Methyl Ethyl Ketone (MEK)
1,2-Dichloropropane	Bromoform	Methyl tert-butyl ether
1,3-Dichlorobenzene	Bromomethane	Styrene
1,3-Dichloropropane	Carbon Tetrachloride	Tetrachloroethene (PCE)
1,4-Dichlorobenzene	Chlorobenzene	Tetrahydrofuran (THF)
1,1,1-Trichloroethane	Chloroethane	Toluene
1,1,2-Trichloroethane	Chloroform	Total THM's
1,2,3-Trichlorobenzene	Chloromethane	Trans-1,2-Dichloroethene
1,2,3-Trichloropropane	Cis-1,2-Dichloroethene	Trans-1,3-Dichloropropene
1,2,4-Trichlorobenzene	Cis-1,3-Dichloropropene	Trichloroethene (TCE)
1,1,1,2-Tetrachloroethane	Dibromochloromethane	Trichlorofluoromethane
1,1,1,2,2-Tetrachloroethane	Dibromochloropropane	Vinyl Chloride
2-Chlorotoluene	(DBCP)	Xylene
2,2-Dichloropropane	Dibromomethane	

### ORGANIC CHEMICALS – PESTICIDES, HERBICIDES AND PCB'S

Alachlor	Heptachlor	Pentachloronitrobenzene
Aldrin	Heptachlor Epoxide	Silvex (2, 4, 5-TP)
Atrazine	Hexachlorobenzene	Simazine
Chlordane	Hexachlorocyclopentadiene	Toxaphene
Dichloran	Lindane	Trifluralin
Dieldrin	Methoxychlor	2, 4-D
Endrin	PCB's	

## HOW TO USE YOUR WATERCHECK KIT

**FREEZE** refrigerant pack before collecting samples

**FILL** all bottles according to the instructions

**SCREW CAPS ON** tightly to guard against loss of samples during shipping

**PLACE** bottles and frozen refrigerant pack in styrofoam container

**COMPLETE** order form and place in depression on top of styrofoam container

**INSERT** styrofoam into box and tape securely

**APPLY** address label

**SHIP** via guaranteed overnight delivery service
